At a conference of counsel for Harry K. Thaw at 4 o'clock this aftermoon, it was decided to put Evelyn Nesbit Thaw on the stand to contra-Hict the testimony of Abe Hummel.

Thaw's lawyers believe that the young wife will be all to explain away the effect the affidavit produced by Hummel has had upon the pub- cousin wrote love lic mind and, naturally, upon the jury.

At the time the conclusion to have her testify was reached there lwas hope that the case would be closed to-day, and that summing up would begin to-morrow. Dr. Smith Ely Jelliffe, who at forty-one years of age is managing editor of two medical journals, the author of a dozen works on insanity, a lecturer of long experience and an alienist of national reputation, re- or his wife's property, the Rossevelt turned to the stand to-day when Harry Thaw's trial went on for the rest have sued to restrain him from having Mis cross-examination at District-Attorney Jerome's hands,

A rumor circulated through the Crimical Courts Building this even- by Mr. Roosevelt to his wife's sister, ing that Mr. Jerome expects an important witness to arrive on a ship here to-morrow. The District-Attorney would give no clue to the wit-
